APRONS & MORE

Aprons have become an essential part of the attire of many professionals from bartenders, chefs, barbers and tattoo artists and even for enthusiasts who use them when cooking and barbecuing at home.

We believe that simplicity is the essence of beauty and we design and hand-make simple, yet customizable and ergonomic denim aprons.

They have pockets for your phone, pens and tools and can be easily matched with any outfit simply by changing the apron's straps. We have a huge variety of straps from leather to printed cotton designs so you can match any occasion.

All of our products have been crafted with an obsessive attention to details in Cyprus
