Swiss coffee trends – freshly ground, not capsuled

Range 2019/2020

## A JURA coffee machine – always the right choice

‘Good days start with coffee’ – that’s what we believe at Coffema International.

In 2005 we brought one of the German market leaders in the field of installation and service of espresso machines to the UAE. Coffema International is ever since striving to enhance your coffee experience in the Middle East.

As the sole distributor for JURA coffee machines within the UAE Coffema International offers a great range for bean to cup coffee solutions. Who doesn’t like waking up to the smell of delicious coffee? Our household machines make it possible to enjoy freshly ground coffee at home. If you are curious you can find our household line in Galeries Lafayette, Dubai Mall and in Le BHV Marais, City Walk. Please come by and visit us there.

When it comes to the professional machines our range includes the perfect solution for all coffee requirements, from office to restaurant or hotel. It makes it easy finding the perfect coffee machine for you and your team. We install, take care of coffee supplies and do the servicing of your machine. Our service is personal, convenient and affordable. We offer solutions for all types of workplaces: from a small business, corporates, government services to multinational companies.

Using fresh beans brings a great taste and saves you a lot of money over the same time. Please feel free to get in touch. The Coffema team is happy to assist you with inquiries.

Detailed information about the complete range and all colour variants is available on our website at any time. This is also where you will find our Professional range of highly attractive complete coffee solutions for offices and catering: [www.jura.com](http://www.jura.com)

## Perfect short coffees

- **Pulse Extraction Process (P.E.P.®)**  
For professional quality, barista-style coffee
- **Professional Aroma Grinder**  
12.2 per cent\* more aroma and consistently high grind quality over the entire service life
- **Patented variable VC brewing unit**  
For optimum brewing conditions with 5 g to 16 g of ground coffee
- **Intelligent Pre-Brew Aroma System (I.P.B.A.S.©)**  
For hot coffee from the first cup

## Perfect speciality coffees with milk

- **Automatic switchover from milk to milk foam**  
For incredibly easy preparation of trend specialities at the touch of a button
- **Integrated milk system, rinsing and cleaning programme**  
Guaranteed TÜV-certified hygiene even when preparing speciality coffees with milk and milk foam
- **Height-adjustable dual spout with separate coffee and milk pipes**  
Adjustable to suit your cups
- **Patented fine foam technology**  
For perfect speciality coffees with milk in fine foam quality

## Sustainability

- **Patented Zero-Energy Switch**  
Disconnects the machine from the power supply and avoids using standby energy
- **Energy Save Mode (E.S.M.©)**  
Helps to save energy and protect the environment
- **Programmable switch-on and switch-off time (for each day of the week)**  
So the automatic coffee machine is ready when you want it

## GIGA line

This luxurious product line is the pinnacle of the expertise gained over the years. It takes the automatic speciality coffee machine segment to a brand new level and opens up a taste experience of a new dimension for coffee gourmets through revolutionary professional technology. With the user-friendly operating concept, it's never been easier to fulfil your coffee dreams.

SWISS  MADE

# GIGA 5

## Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- 2 professional ceramic disc grinders for precise and consistently even grinding for years to come
- Variable dual spout with 2 coffee spouts and 2 milk spouts for a perfect three-layered result – without interruptions
- Simultaneous preparation of coffee and milk for the perfect caffè latte (café au lait)

Chrome

## Z line

In 2004 JURA unveiled the Z line, the world's first ever one-touch automatic speciality coffee machine for the domestic market. The style icon in the premium range has now been fully revamped. Offering speciality coffees at the touch of a button, its perfect coffee quality, extreme ease of use, sculptural design and high-quality materials impress gourmets and design aficionados alike.

SWISS  MADE

# Z6

## Benefits at a glance

- Professional Aroma Grinder for ideal grinding results over the entire service life
- New fluid system enhances the variety to include barista specialities and espresso doppio
- Artificial intelligence automatically adapts the start screen to personal preferences
- Alu Frame Design<sup>®</sup> 3 mm a pleasure to touch and a high-quality finish

Diamond Black

## S line

With its clear cut, sculptural design, the stylish S line exudes quality and precision in every way. It combines the best of the compact class with elements of the premium segment, including a hint of the GIGA. The impressive range of specialities and the stunning result in the cup satisfy even the most demanding coffee connoisseurs. The operating concept is based on simplicity and intelligence. The JURA S line creates a new segment in coffee machines: the premium mid-segment.

# S8

## Benefits at a glance

- Ultimate coffee quality thanks to the Aroma<sup>G3</sup> grinder and Pulse Extraction Process (P.E.P.®)
- 4.3" high-resolution TFT touchscreen colour display with sophisticated operating concept for intuitive navigation
- Professional fine foam frother<sup>G2</sup> for either feather-light milk foam or hot milk
- One-Touch function for 15 specialities – from espresso to latte macchiato

Chrome

reddot award 2018  
winner

## E line

Clear, symmetrical forms, harmonious lines and a love of detail give the E line an elegant aesthetic that looks stunning in any kitchen. The most successful JURA coffee machine is equipped with innovative technologies to create truly wonderful results that will satisfy even the most discerning coffee lovers.

## E8

### Benefits at a glance

- 15 different specialities at the touch of a button
- Fine foam frother<sup>G2</sup> for feather-light milk foam
- Ultimate coffee quality thanks to Aroma<sup>G3</sup> grinder and Pulse Extraction Process (P.E.P.<sup>®</sup>)
- Simple operating concept, with controls on front of machine, with modern TFT colour display and a water tank filled from the front

Dark Inox

## ENA line

Small, stunning, simple: the modern ENA line. Developed specifically for small spaces and equipped with numerous innovations for perfect speciality coffees, it will win over all lovers of coffee and good design in no time. Its intuitive operating concept makes it easy to create the beverage you want. The sleek all-round design draws your attention to one particular element: the cylindrical water tank.

Sunset Red

## ENA 8

### Benefits at a glance

- Measures just 27.1×32.3×44.5 cm
- Stunning all-round design and cylindrical water tank
- Easy to use via TFT colour display and operating panels
- 10 specialities at the touch of a button – freshly ground, not capsuled

## A line

Its distinct, clear lines make a statement. It will fit in anywhere with its compact, slimline dimensions. Its logical, intuitive operation sets new standards in simplicity. Its unique, full-bodied coffee quality delivers ultimate enjoyment. Welcome to the new world of JURA, where everything is reduced to the bare essentials.

# A1

## Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- Aroma<sup>G3</sup> grinder now twice as fast for fully preserved aroma
- Touch panel with three user-defined cup sizes and two aroma levels to choose from
- Elegant and compact, making it ideal for use in small spaces

Piano Black

PROFESSIONAL

## WE line

Coffee supports creativity, promotes communication and increases well-being. That's why JURA designed the WE line as 'plug and enjoy' coffee machines that enable people to enjoy their favourite beverage with style in the workplace. Their greatest strengths are their flexibility, aesthetics and simplicity and the enlarged capacity of the bean container, water tank and coffee grounds container.

New

WE8

## For lovers of coffee specialities

Benefits at a glance

- Aroma<sup>G3</sup> grinder and Pulse Extraction Process (P.E.P.<sup>®</sup>) for ultimate coffee quality

- Simple operating concept, with controls on front of machine, with modern TFT colour display and a water tank filled from the front
- Fine foam frother<sup>G2</sup>, height adjustable on a continuous scale for cappuccino, latte macchiato and flat white topped with fine foam at the touch of a button

Chrome

# X8

If you need a coffee machine which can prepare a wide range of speciality coffees, has a simple operating concept and a daily output of up to 80 cups, then the fully redeveloped X8 is the perfect solution. The versatility and simplicity of this coffee machine are truly impressive: from espresso and latte macchiato to a pot of coffee, the whole spectrum of speciality coffees can be prepared to barista standard at the touch of a button. An intuitive operating concept with large, clearly arranged preparation buttons, a convenient cup positioning aid, lockable bean container and water tank, and the integrated disable function make the X8 the ideal self-service solution for staff or guests.

## Preparation times

A pot of coffee (360 ml)  
2 minutes 20 seconds

2× latte macchiato  
1 minute 50 seconds

2× cappuccino  
1 minute 18 seconds

2× flat white  
1 minute 35 seconds

2× caffè latte  
1 minute 34 seconds

2× coffee  
1 minute 3 seconds

2× espresso  
48 seconds

2× ristretto  
33 seconds

Hot water (200 ml)  
50 seconds

- **21 programmable specialities**  
Customised coffee at the touch of a button thanks to modern One-Touch function
- **Bean container and water tank can be locked**  
To prevent manipulation
- **Disable function for products and programming**  
Prevents accidental operation, e.g. during cleaning
- **6 large front-mounted direct selector buttons and 2 navigation buttons**  
Delicious coffee at the touch of a button
- **2.8" TFT colour display**  
Extremely easy to use and maintain thanks to visual user guidance
- **Automatic milk system cleaning**  
TÜV-certified hygiene when using milk
- **Pulse Extraction Process (P.E.P.®)**  
Optimises extraction time to guarantee professional quality, barista-style coffee
- **Intelligent Water System (I.W.S.®)**  
CLARIS Pro Smart maxi and CLARIS Pro Smart ensure perfect water quality, I.W.S.® detects the filter automatically

New

## GIGA X3c/X3

The GIGA X3 allows JURA to impressively demonstrate Swiss innovation and professionalism down to the very last detail. Anywhere where a capacity of up to 150 cups is the order of business, the machine impresses users with its quality, functionality and reliability. Coupled with top performance in every respect, this results in a high-tech automatic coffee machine that is ideally tailored to the requirements of large offices, the breakfast, seminar and conference venue sectors as well as self-service areas.

### Preparation times

A pot of coffee (360 ml)  
1 minute 57 seconds

2× latte macchiato  
1 minute 29 seconds

2× cappuccino  
1 minute 18 seconds

2× Flat White  
1 minute 29 seconds

2× caffè latte  
1 minute 10 seconds

2× coffee  
1 minute 1 second

2× espresso  
56 seconds

2× ristretto  
38 seconds

Hot water (200 ml)  
27 seconds

## A high-performance move into the top class

- **4.3" touchscreen colour display**  
Extremely easy to use, maintain and customise thanks to visual user guidance
- **Precision ceramic disc grinder with Automatic Grinder Adjustment (A.G.A.®)**  
Consistently precise grinding results for many years thanks to automatic readjustment
- **Speed function thanks to additional hot water bypass**  
A perfect, aromatic, wonderfully pleasant lungo in record time
- **2 thermoblocks and 2 pumps**  
Perfect caffè latte thanks to coffee and milk flowing into the cup at the same time
- **32 different specialities can be programmed**  
A range of specialities at the touch of a button, coffee to suit individual tastes
- **Automatic milk system cleaning**  
Cleanliness and TÜV-certified hygiene at the touch of a button
- **Sound design**  
Maximum performance with minimum noise levels
- **Pulse Extraction Process (P.E.P.®)**  
Even short specialities are possible in coffee-shop quality thanks to the optimised extraction time

# GIGA X8c / X8

The new generation of the GIGA X8c/X8 reflects Swiss innovation and professionalism down to the smallest detail. From intuitive operation with touch technology and 5-star handling to the ultimate coffee quality in the cup, it provides outstanding performance. The GIGA X8 is also four times more professional. Wherever capacities of up to 200 cups a day are required, it delivers quality, functionality and reliability. The result is a high-tech coffee machine that's tailor-made for office floor solutions, seminars, event catering or coffee to go solutions.

CLARIS Pro Smart maxi and CLARIS Pro Smart ensure perfect water quality, I.W.S.® detects the filter automatically\*

\*With GIGA X8; for the GIGA X8c with permanent water connection, we recommend the JURA water filter system.

## Complete pleasure

Using modern accessories, it is possible to adjust JURA coffee machines to suit the way you like to enjoy your beverages. It is only possible to enhance the aroma of perfectly prepared coffee if the cups have been warmed up correctly, and an optimum crema can develop. Fresh, cool milk is ideal for a fine milk foam. In this way, perfect trend specialities can be created with a creamy foam topping. This is why JURA has developed accessories that offer the greatest possible comfort and convenience whilst guaranteeing optimum enjoyment. Add to your automatic speciality coffee machine module by module, entirely in accordance with your own personal preferences.

Cool Control  
1.0 litre, black  
Optional accessories: Wireless Transmitter

milk container  
0.6 litre

Milk Frother  
Hot & Cold

Cup warmer

CLARIS – the original

## Your water, freshly filtered

The right water is crucial to the taste of the coffee because coffee consists in fact of 98 % water. In addition to calcium, minerals and fluorides, the tap water in many areas contains traces of lead, copper, aluminium and chlorine. Positioned directly in the water tank, the CLARIS filter freshly filters the water every time coffee is prepared. It completely absorbs harmful substances while retaining important fluorides, which help the flavours to really develop. With the optimum water quality, every cup of coffee becomes a full-bodied taste experience. CLARIS eliminates the need to descale the machine.
