# OUR STORY

---

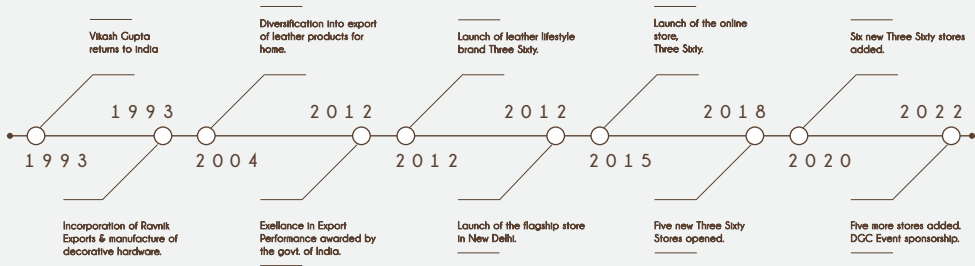

Three Sixty is a lifestyle brand and design studio. The brand offers one-of-a-kind, handcrafted leather furniture and accessories, combined with a seamless customer experience.

The studio works in a unique collaborative process with its clients to develop bespoke leather collections with an ethos of celebrating its rich tradition of classic and contemporary design, Indian craftsmanship and sustainable practices through its products and services.

# CUSTOMIZATION

## The Three Sixty Customization program

Three Sixty is proud to be your design resource for customization, offering a variety of options. We invite you to discover the possibilities using three sixty leathers, detailing and finishes, combined with a collaborative spirit, every step of the way.

### Measurements

As a first step of the journey, we understand the space and the products that need to be worked on. Getting the sizes and space right, is key to beginning the visualization process.

## Design and Material Selection

Through a collaborative process with our customers and clients, we develop a visual board to understand what the products will look like in the space. This further includes important details like design, leather suggestions, colours, layouts and more.

### Execution & Delivery

Once the details are final, our artisans lovingly handcraft each bespoke piece, from the initial frame, to leather upholstery to the final finishing. The finished pieces are carefully packed and transported straight to your door. We offer a 5-year warranty on all our products and free after sales service in the unlikely event of defect or leather maintenance. We also provide a leather care manual to all our customers to properly maintain and care for their leather furniture.

## BESPOKE

At Three Sixty, collaborating on personalized, individual pieces is a core aspect of the brand. While many ThreeSixty pieces are purchased and enjoyed as we designed them, we understand that our designs serve, as inspirations for our customers and clients, be it for home, work or retail.

For that purpose we offer a range of myriad services to customize our products to your specifications and needs. Right from mapping the space, to material selection and execution, to providing after sales support, we believe in being there every step of the way. We offer these services to our customers and clients, on projects big and small.
